Commercial In Confidence

Developer Accreditation Path

Basic Awareness

Online videos covering:

- Robotic Process Automation
- How Blue Prism Works

Link through to the Blue Prism Learning Management System (LMS) to take the Basic Awareness Survey

Developer Accreditation Path

Training and Mentoring

Self-learning Foundation Training covers the basics of Blue Prism development.

Concludes with a Consolidation Exercise that creates an end to end solution

Mandatory guides available from the Portal

Assessment

Consolidation Exercise solution reviewed by local Lead Developer or Blue Prism.

Link through to the Blue Prism Learning Management System (LMS) to take the self-tests.

Each test contains 10 randomly drawn multiple choice questions.

Developer Accreditation Path

Accreditation

Once all the self-tests have been completed and following at least three months practical development experience a developer is prepared for the Developer Accreditation Exam

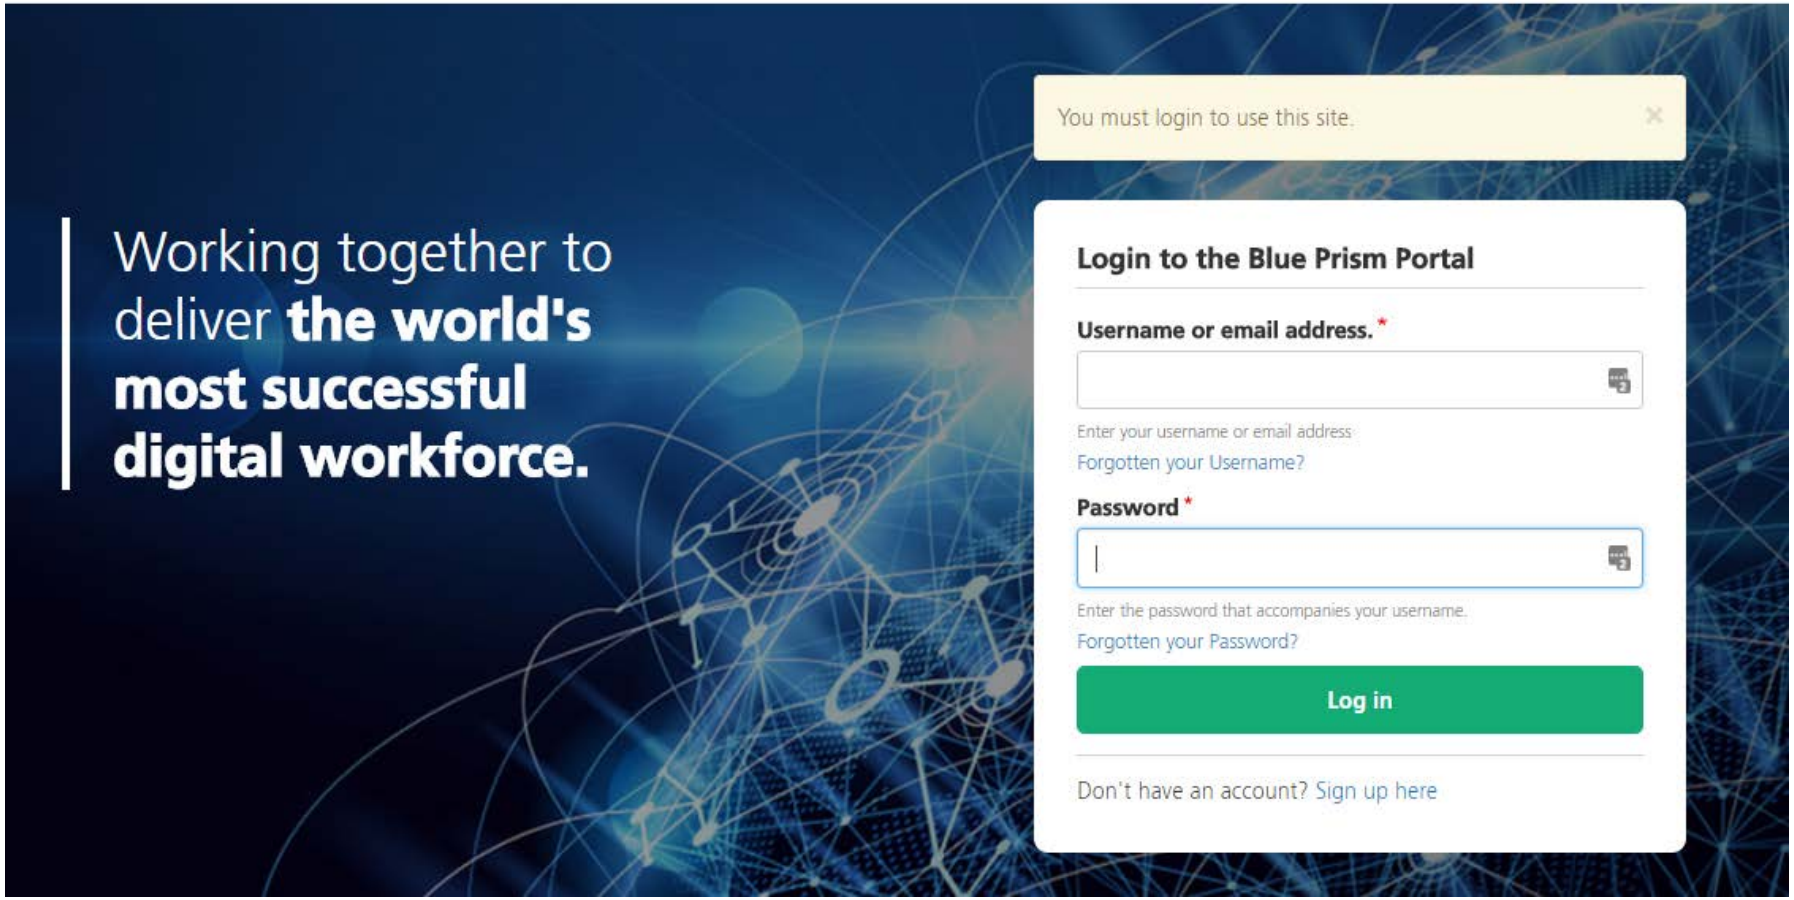
The exam is delivered online and consists of 60 multiple choice questions covering all development aspects within Blue Prism.

A score of 70% is required to pass with further awards for Merit and Distinction for those who score highly.

For more details see the Developer Accreditation Overview PDF on the Blue Prism Portal.

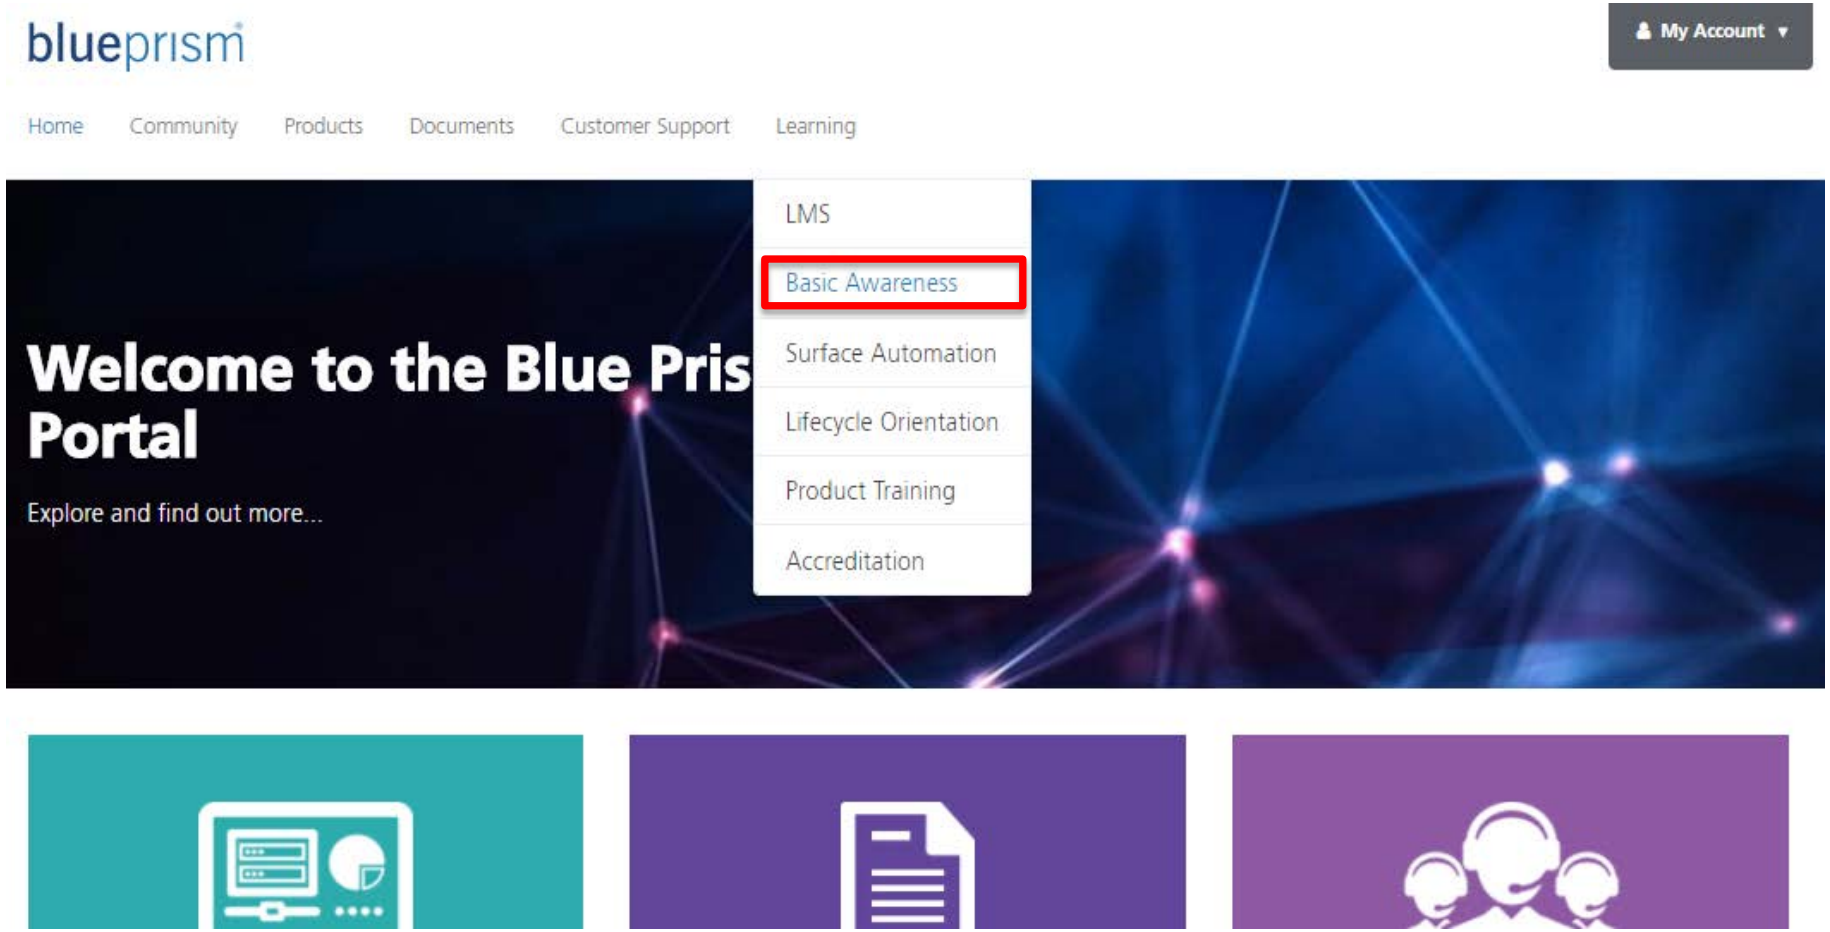
Portal Registration

You will need an account on the Blue Prism Portal. Register at https://portal.blueprism.com/



Basic Awareness

Once your account has been created logon to the Portal at https://portal.blueprism.com. You can navigate to Basic Awareness via Learning – Basic Awareness



Basic Awareness

Review New Frontiers in Robotic Automation and How Blue Prism Works then click through to the Learning Management System (LMS) to take the Basic Awareness Survey

The Basic Awareness section provides an introduction to the Blue Prism philosophy and an overview of the Blue Prism product plus associated Operating Model.

Prior to completing the Basic Awareness survey, you are required to watch the following videos and study the Operating Model overview. For more details on developer accreditation programme please see the Developer Accreditation Path document.

Once you have reviewed the Basic Awareness material please complete the **Basic Awareness Survey.**

- **New Frontiers In Robotic Automation**
- **How Blue Prism Works**

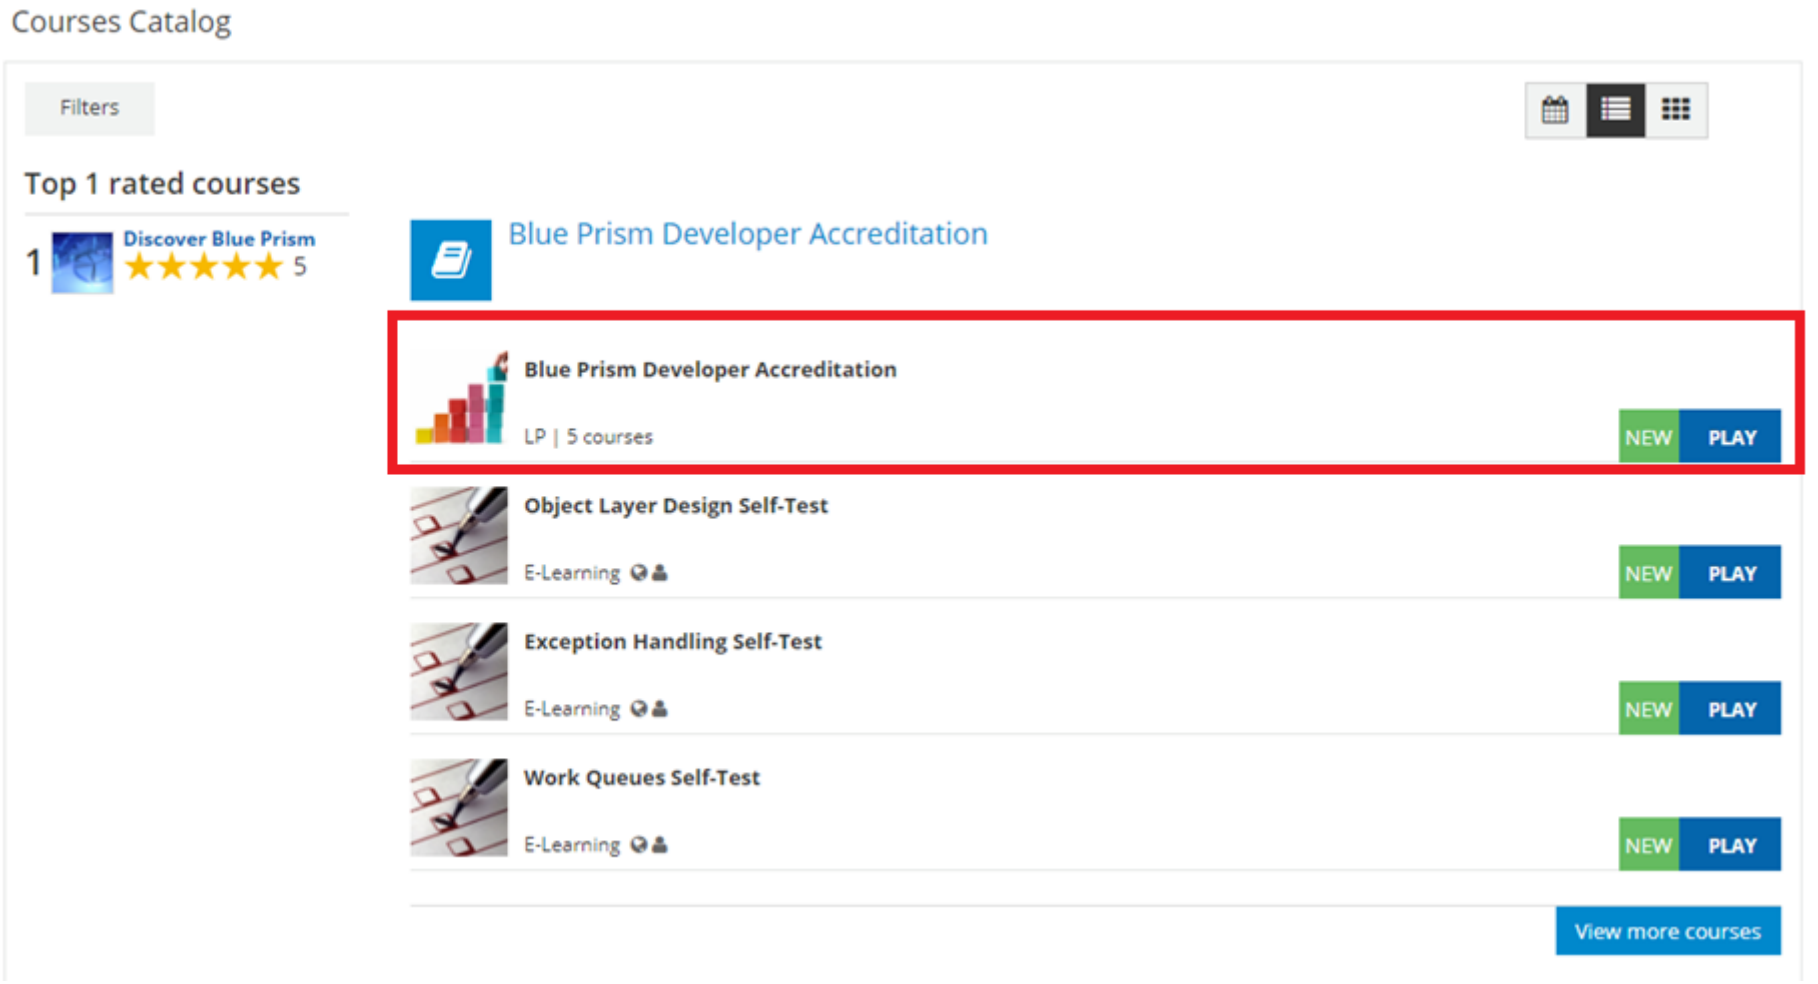
Developer Accreditation Path

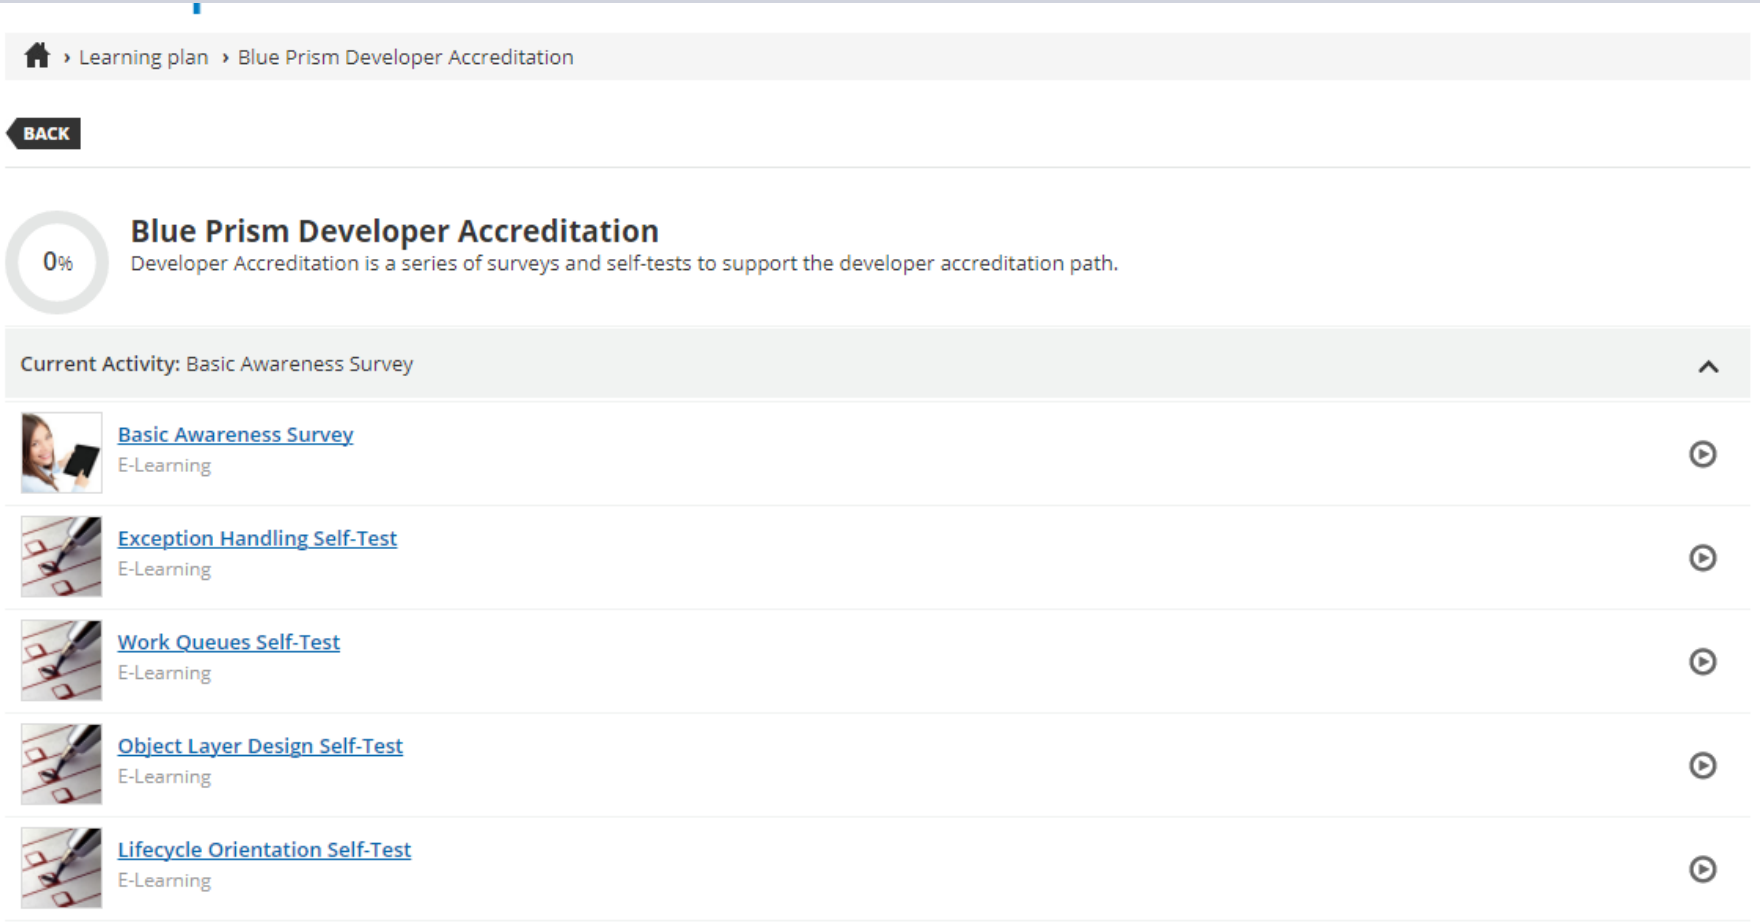
Learning Management System

Once inside the LMS select the Developer Accreditation Learning Plan in your course catalog



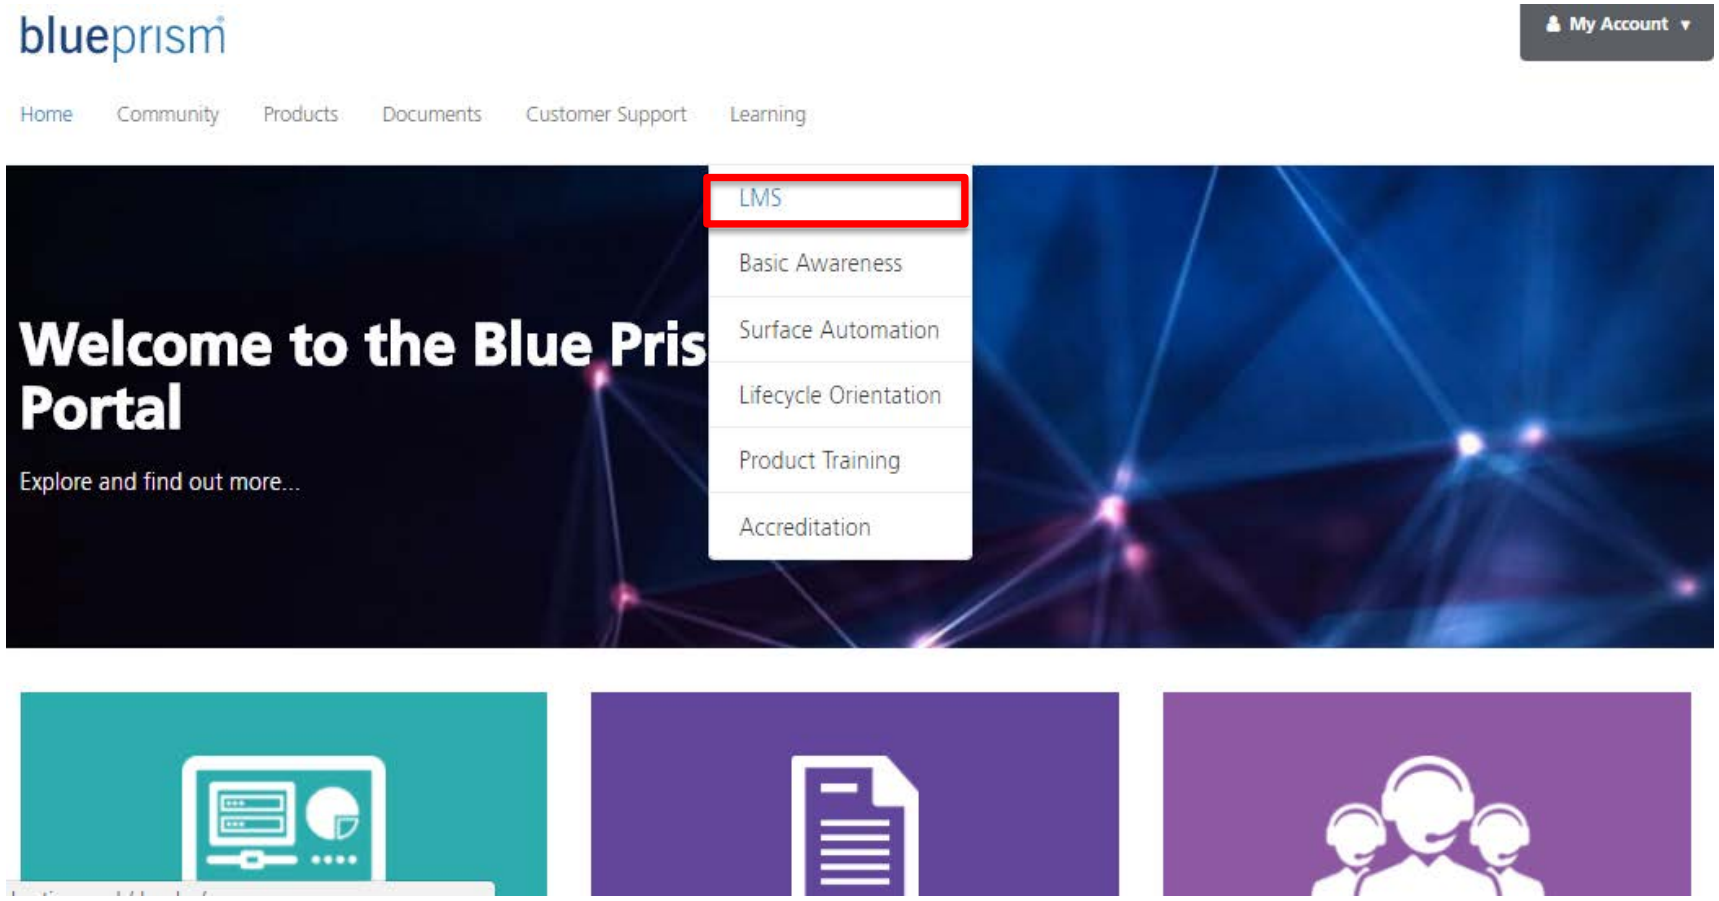
Basic Awareness Survey

Your Learning Plan will show your progress through the Basic Awareness Survey and Self-Tests. Click though and take the Basic Awareness Survey.



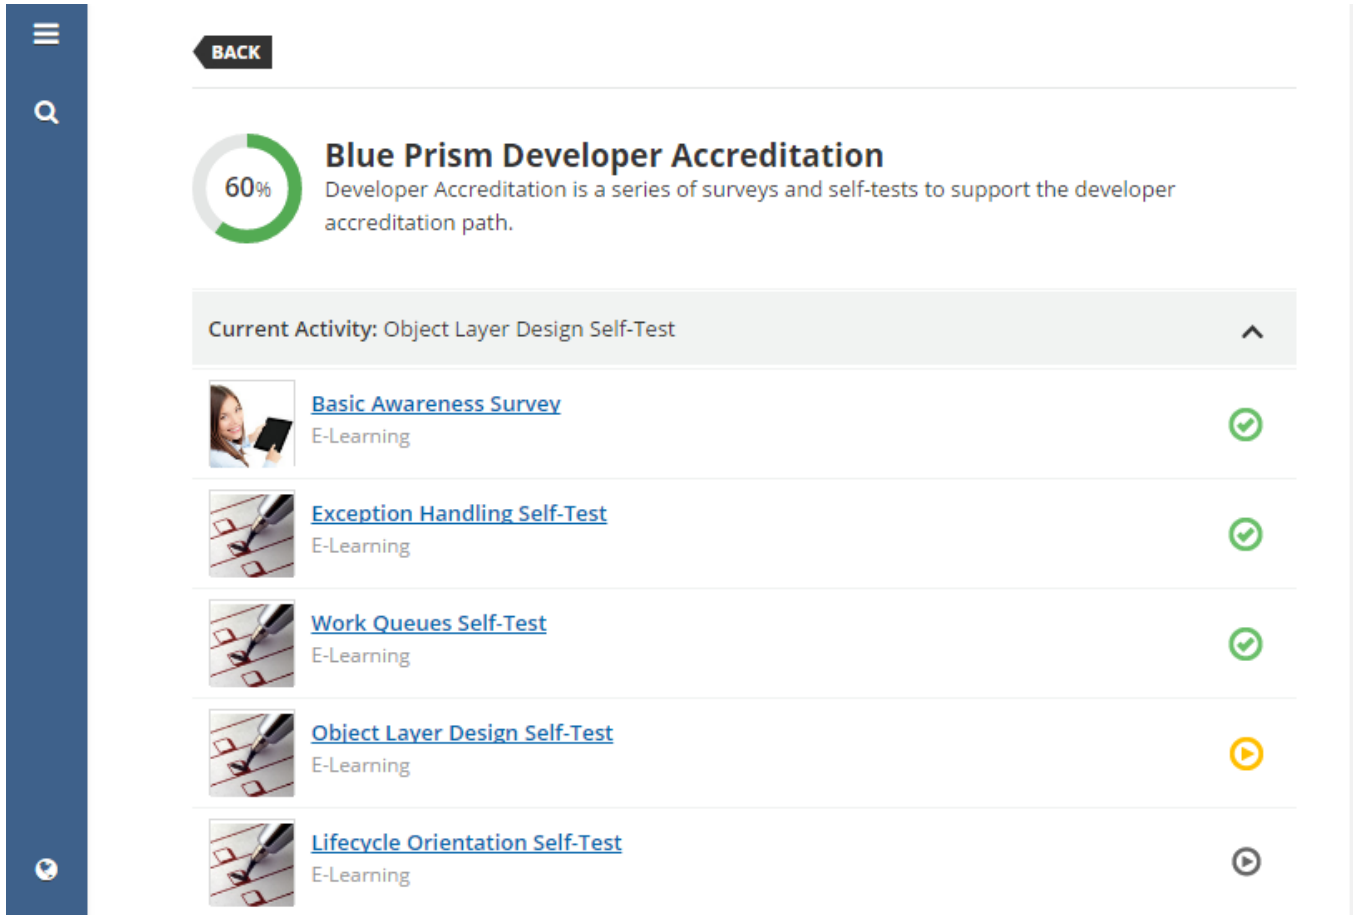
Self Tests

The LMS will also host the self-tests. You can link through from the Learning menu



Learning Management System

Your Learning Plan will show your progress through the Basic Awareness Survey and Self-Tests. The self-tests can be taken as many times as you like. They are for your benefit. The scores are not recorded. Each test draws from a pool of questions that will test your understand of some of the key post-Foundation mandatory learning.



Learning Management System

On your home page scroll down to below your learning catalogue and you will see the additional training that is available. These curriculums are **not** represented on the Developer Accreditation exam but you can enrol on other learning plans for non-technical learning and to discover more about Blue Prism and RPA
